1. CONTEXT

1.1 PURPOSE

This Health and Safety Management Plan (HSMP) defines <Insert Company Name>'s approach to health and safety management of the <site> Project and integrates both regulatory and business requirements.

1.2 SCOPE

This plan is applicable to <Insert Company Name> employees and contractors at the <site> Project.

1.3 ORGANISATION CONTEXT

<Describe the main business activity and location(s)>.

<Insert Company Name> has identified the external and internal issues that are relevant to its purpose and that can influence the performance of the health and safety management system (HSMS). These are listed in Table 1 below.

Table 1. <Amend as appropriate>

Internal Issues	External Issues
Employees	Client requirements
Innovation	Suppliers
Knowledge	Economic backdrop
Performance	Regulatory environment

Issues which impact our context are reviewed at Management Review meetings and considered in our risk assessment.

1.4 STAKEHOLDERS (RELEVANT INTERESTED PARTIES)

<Insert Company Name> has identified:

- The stakeholders who are relevant to the health and safety management system;
- The needs, the demands and the expectations of these stakeholders.

These stakeholders are both internal and external, and are described in broad terms in Table 2.

Table 2. <Amend as appropriate>
